- CSS
- JavaScript
- MySQL
- MongoDB
- Express
- TypeScript
- HTML
- Node.js
- Git
- React
- Jest
- UI/UX

PROFESSIONAL SUMMARY

Self-motivated and well qualified Full Stack Developer. I started my journey into programming, focusing primarily on web development taking online courses in the internet by myself. I also completed Rutgers Coding Bootcamp which gave me experience collaborating to build front-end and back-end web applications, problem-solving skills and adept at collaborating within teams.

WORK HISTORY

Junior Full-Stack Developer (Personal Projects)   *Current*

- Actively studying and improving my coding skills thru books, videos, projects and courses
- Gained hands-on experience developing and deploying web applications.

Freelance Web Developer   *Current*

- Developed landing pages for small businesses, ensuring responsive and optimized designs
- Managed end-to-end project delivery, from client requirements to deployment
- Focused on improving performance, accessibility, and user experience
- Reduced load times and improved site speed by optimizing images, scripts, and other assets.

Collaborative Projects | Rutgers Coding Bootcamp   *12/2023 - 07/2024*

- Participated in 3 team-based projects, collaborating with classmates using the Kanban methodology

- Applied full-stack technologies like HTML, CSS, JavaScript, Node.js, MongoDB, React, and Git
- Gained hands-on experience in working with agile practices to meet deadlines and project goals
